

1- White Knight

Put of the border and into the night
It's the big battle that he had to fight
to cut the night with light,
to fight with delight
holding the banner of eternal light

White Knight,
on the wings of forever
white knight,
galloping high
White Knight
the redeemer, the exciter
white knight, will never die

Into the canyons and upon the land
wild dogs are howling, no other sound
striking with fury, the demons drop down,
cutting through madness,
re-claiming the crown

White Knight.....
abazeed with glory, a blast to the sky,
prevailing smile at the rising sun,
no longer living the nightmare or fright,
tyrants beg mercy, for their crimes,
white knight.....

2- Ring the Bell

Suck the oil out of the earth
burn it to destroy the air,
could it happen in our time,
tell me should I really care,
now you've got a massive spill,
it's raining acid rain,
and you're wondering why,
you're dying of the pain!

Kick that nuclear energy
harness for outer space,
keep that radiation down,
join the freakin' human race,
now the earth is rumbling down,
the waves are crashing in,
day of judgements calling out,
it's time to pay for all the sin,

You can deny it, but it's true
that the world has turn to shit,
the devil's got it by the balls,
you just sit there and you spit,
now tell me who's to blame,
or why we're living in hell,
take a look around,
you know it's time to ring the bell,

3- Incipient

(instrumental)

4- Coming Promised Day

Time is passing by, nobody seems to care,
the seconds, passing in the day,
there's wars and destruction,
but it's all in waste, we've got to find a way,
can you hear me.....
trying, to understand,

trying to find a way,
there is no turning back, coming promised day, I
People are dying, all over the world,
I cannot see a man, who's really happy,
there's wars and destruction,
but it's all in waste, we've got to find a way,
can you hear me,
trying, to understand
trying, to find a way
there is no turning back
coming promised day

5- Burning Flame

Let's get the gear it's time to roll
unknown ahead, it's time to go,
leaving behind, all that is dear,
searching for light you've got no fear,

gather up your strength, it's time to Rock
you cannot turn back the clock,
sacrifice everything, nothing's for sure,
full speed ahead, out of control,

burning flame, is driving me insane,
it's such a shame, if it's all in vain,
just like a burning flame,
you've got to wish upon a star,
stay up all night and play guitar,
got to keep the faith, never give up,
got nothing to loose, follow your heart,
burning flame, is driving me insane,
it's such a shame, if it's all in vain,
just like a burning flame,
